Initiatives taken by TANGEDCO

- Online application filing
- Simple and two step processing
- Just one ownership document needed
- Online payment of charges
- Quick service connection
- Application status can be tracked online

Tamil Nadu Generation and Distribution Corporation Limited

Press Release

Considering the public interest in large, the TANGEDCO has decided to introduce the 'one day service connection scheme' in Tamil Nadu in respect of LT Domestic and Commercial service connections (other than special and multi-storeyed buildings) falling under mere service connection category with effect from 01-07-2017. Under this scheme, the Domestic and Commercial buildings which require low tension electricity service connections should be within 100 feet from the electricity mains of TANGEDCO and if so, the electricity service connection can be effected on the same day or a maximum time of 48 hours in cases which involve road cut for laying of underground service connection cable.

The applicants of the LT Domestic and Commercial service connections can apply either through the TANGEDCO's web-portal (www.tangedco.gov.in) or in person at the concerned section office of the TANGEDCO. In the online mode, the applicant has to fill the details in the application and upload the scanned copies of the supporting documents. Further, the applicant can pay the following charges at the time of registering the application itself either on online mode or through off-line:

Sl.No.	Description	Charges for domestic services in Rupees		Charges for commercial services in Rupees	
		Single Phase	Three Phase	Single Phase	Three Phase
1	Registration Charge	50	50	50	50
2	Service Connection Charge	250	500	250	500
3	Meter Caution Deposit	700	2500	700	2500
4	Development Charge	400	1400	400	200 per kW*
5	Initial Current Consumption Charge	200	600 per kW *	200	600 per kW *
	Total in Rupees	1,600/-	4,450/- plus 600/- per kilo Watt.	1600/-	3050/- plus 800/- per kilo Watt

In the case of cities, where the underground cable system predominates, the applicant can pay the necessary estimate charges if any, along with the first current

consumption bill, which will be intimated to the consumer by the TANGEDCO through separate notice / e-mail / SMS etc.

Further, the consumer need not supply any materials such as underground cables, etc. for availing electricity service connections.

With this online application filing facility, the applicant need not visit the TANGEDCO office and he can apply for new service connection from any place without any hindrance and pay the charges in a simplest way so as to get the service connection at the earliest.

In case of any complaints, the intending consumers can give complaints to the Director General of Police / Vigilance / TANGEDCO through Email: adgp@tnebnet.org, Phone No. 044-28520416, Fax No. 044-28520749.
